LAMINATE WALL
PANELS

装饰饰界的梦想

DREAM OF
DECORATING
THE WORLD

翻开本图册，我们将带您进入一段饰面板之旅，了解饰面板的世界。

Open this brochure, and we will take you on a journey of laminate wall panels to understand the world of laminate wall panels.

PREFACE
前言

近二十年来，随着我国家具制造业及装饰装修行业的飞跃式增长，饰面板被越来越广泛应用于酒店、办公、教育、地产、医疗等商业建筑及住宅空间中。16年来，五羊艺冠致力于研发声学材料、高端饰面板，在满足功能、健康和安全的同时，为设计师和业主提供尽可能多的美学选择。

越来越多基材种类被开发应用，木皮、防火板、三聚氰胺饰面等技术不断突破，以及安装系统的完善，都大大解放了板材的材料限制。我们可根据空间的特性和风格，搭配选择合适的基材和饰面，既满足场所的功能需求，又不牺牲美学表达效果

In recent twenty years, with the rapid growth of China's furniture manufacturing industry and decoration industry, laminate wall panels are more and more widely used in commercial buildings and residential spaces such as hotels, offices, education, real estate, medical care, etc. In the past 16 years, WINEGO has devoted itself into the research and development of acoustic materials and high-end laminate wall panels, providing designers and owners with as many aesthetic choices as possible while meeting the requirements of function, health and safety.

More and more kinds of base materials have been developed and applied, and the continuous breakthrough of technologies such as wood veneer, high-pressure laminate and melamine finish , as well as the improvement of installation system, have greatly liberated the material limitation of the panel. According to the characteristics and style of the space, we can choose the appropriate base materials and finishes to meet the functional requirements of the place without sacrificing the aesthetic expression effect.

广州市五羊艺冠声学材料有限公司成立于2005年，是集研发生产、销售服务、方案设计到安装实施为一体的高端声学装饰解决方案供应商。公司占地面积2万多平方米，拥有饰面板、吸声材料、隔声减振材料、扩散材料等多个生产车间，生产规模及整体配套居行业之首。

公司为国家高新技术企业，通过国家知识产权管理体系认证、ISO9001: 2015国际质量管理体系认证，各项资质认证、专利证书、国内国际测试报告居行业之首。

五羊艺冠50%产品出口到国外，公司致力于产品品质，高端、高性价比产品开发，木制品及声学产品五星级定制服务，越来越多的全球知名企业和我们成为战略合作伙伴。

Guangzhou Winego Acoustic Material Co., Ltd. established in 2005, is a high-end acoustic decoration solution supplier integrating R & D, production, sales and service, design and installation. Company covers an area of more than 20,000 square meters and has multiple production workshops for laminate wall panels, sound absorption materials, sound insulation and damping materials, and diffusion materials. The production scale and overall supporting facilities rank first in the industry.

As a National High-tech Enterprise, WINEGO has participated in editing of China's "Standard for Acoustic Design of Buildings in Super Large Public Spaces". We have passed the national intellectual property management system certification and ISO9001:2015 international quality management system certification. Our various qualification certifications, patent certificates, domestic and international test reports rank first in the industry.

Our 50% products are exported to overseas market. Our company is committed to product quality, high-end and cost-effective product development, wood products and acoustic products five-star customized services. More and more world-renowned enterprises have become strategic partners with us, and WINEGO has became the international name card of China's high-end acoustic decoration materials.

WINEGO SUPERIORITY
五羊优势

先进设备

行业先进齐全的生产设备、标准化UV及PU油漆生产线。

Advanced equipment

Advanced and complete production equipment, standardized UV and PU paint production lines.

优选原料

所有的基材、饰面、胶水等原材料及辅料，全部采用行业顶尖品牌产品。

Preferred raw materials

Selected raw materials: All raw materials and auxiliary materials such as base materials, finishes and glues are all top brand products.

个性定制

饰面板在饰面、基材、规格、造型、便捷安装等五个维度的个性化定制，为设计师设计方案的完美呈现提供最为有效的落地解决方案。

Personalized customization

Personalized customization of decorative in five dimensions, finish, base material, specification, modeling and convenient installation, provides the most effective landing solution for the perfect presentation for designer's design scheme.

设计精美

全球顶尖三聚氰胺、木皮、防火板等公司持续提供设计及材料支持，确保五羊艺冠产品在花色开发和品质上均处于领先水平。方案的完美呈现提供最为有效的落地解决方案。

Exquisite design

The world's top suppliers such as melamine, wood veneer and high-pressure laminate continuously provide design and material support to ensure that WINEGO products are at the leading level in style development and quality.

专业服务

专注饰面板整体解决方案超过16年，积累了大量各类型空间产品应用和配套服务经验及案例。

Professional services

Focus on the overall solution of decorative panel for more than 16 years, accumulates a large number of experience and projects of applying and supporting services of various types of space products.

应用广泛

产品严格执行国家及国际标准，确保产品在环保、防火、抗变形、吸水膨胀率等技术指标上高于实际应用要求，产品应用范围覆盖各类型空间。

Widely used

The products strictly comply with the national and international standards, ensuring that the technical indicators such as environmental protection, fire prevention, deformation resistance and water absorption expansion rate are higher than the actual application requirements, and the application scope of the products covers various types of spaces.

OVERVIEW
饰面板概述

五羊艺冠饰面板系统，选取行业最优质环保防火基材和饰面，采用精湛的制作工艺，出厂前完成所有产品工艺细节，现场只需做简单拼装便可，它不仅仅是墙板，而是全套墙面系统解决方案，为客户提供全方位一站式服务。五羊艺冠饰面板系统包含平面板、造型板、安装龙骨和阳角阴角收边系统等。

WINEGO decorative system selects the industry's best environmental protection and fire resistant base materials and finishes, adopts exquisite manufacturing technology, completes all process details before delivery, and only needs simple assembly on site. It is not only a wall panel, but a complete set of wall system solutions, providing customers with all-round one-stop service. WINEGO decorative system consists of flat panel, modeling panel, installation keel, external corner and internal corner edging system, etc.

产品特点 Features

环保性能：所有材料符合国家以及国际环保标准，达到E1级E0级或无醛环保要求。

Environmental protection performance: All materials meet the national and international environmental protection standards, and meet the requirements of E1 according to EN717-1 Formaldehyde Emission Limits.

防火性能：按照GB8624–2012《建筑材料及制品燃烧性能分级》检验，燃烧性能达A级/B1级。

Fire resistance: According to GB8624-2012 Classification for burning behavior of building materials and products, the burning behavior reaches Grade A /B1.

饰面高端，花色多样：挑选行业时尚高端优质饰面，提供多样选择，给客户打造品位空间。

High–end finishes with various colors: Select fashionable high-end finishes in the industry, provide various choices, and create a taste space for customers.

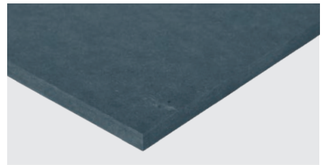

快速简易安装系统：结构简单，有各种安装龙骨，阳角，阴角，收边等整套成熟的安装配件可供选择。

Quick and simple installation system: Simple in structure, with various mature installation accessories to choose from, such as installation keels, external corner, internal corner and edge-closing.

应用范围：办公空间、教育空间、酒店空间、地产空间、医疗空间、文娱空间、会所别墅及艺术中心等。

Applying: Office space, educational space, hotel space, real estate space, medical space, entertainment space, club villa and arts center, etc.

BASE MATERIALS 基材类型

零醛彩色密度板 Non-formaldehyde color density board Environmental

环保： E0标准、无醛
Protection: Standard E0, no aldehyde

特点：蓝、橙、黑、黄、绿、灰、浅灰、红、褐色，9款颜色，内外颜色一致，可直接做饰面层；密度高，优质的加工性能

Features: Blue, orange, black, yellow, green, gray, light gray, red, brown, 9 colors, with the same internal and external colors, which can be directly used as decorative finishing panel; High density, high quality of processing performance

零醛欧松板 Non-formaldehyde OSB

环保：E0标准、无醛
Protection: Standard E0, no aldehyde

特点：密度低强度高，防潮
Features: Low density, high strength and moisture resistance

阻燃密度板 Fire resistant MDF

环保：E1标准
Protection: Standard aldehyde

阻燃：B1级
Fire-resistant: Class B1

特点：结构均匀，稳定性好，加工性能好
Features: Uniform structure, good stability and good processability

实木多层夹板 Solid wood multi-layer plywood

环保：E0或E1标准
Protection: Standard E0 or E1

阻燃：B1级
Fire-resistant: Class B1

特点：稳定性好、不易变形、防潮性能
Features: Good stability, not easy deform and moisture resistant

A级抗菌冰火板 Grade antibacterial ice-fire panel

环保：E1标准
Protection: Standard E1

防火：A级
Fire-resistant: Class A

特点：防火绝缘，抗菌防潮
Features: Fire resistant insulation, antibacterial and moisture-proof

A级陶铝板 A grade black MGO panel

环保：E1标准
Protection: Standard E1

防火：A级
Fire-resistant: Class A

特点：防火、强度高
Features: Fire resistant and high strength

A级铝镁复合 A grade Alu-MGO composite panel

环保：E1标准
Protection: Standard E1

防火：A级
Fire-resistant: Class A

特点：高质玻镁板+正反面铝板+饰面层结构，防火、强度高、防霉防潮防腐性能优
Features: High-quality glass magnesium plate, aluminum plate on both sides, and decorative layer structure, with fire prevention, high strength, excellent mildew, moisture and corrosion resistance

A级铝木复合 A grade aluminum-wood composite panel

环保：E1标准
Protection: Standard E1

防火：A级
Fire-resistant: Class A

特点：实木多层夹板+正反面铝板+饰面层结构，质轻、强度高、防霉防潮防腐性能优
Features: Solid wood multi-layer plywood, aluminum plates on both sides and decorative layer structure, light weight, high strength, excellent mildew, moisture and corrosion resistance

FINISH I

饰面类型 I

VENEER
木皮

最早的木皮使用是在4000年前的埃及，由于当地是热带沙漠气候，木材资源紧张稀缺，但是统治阶级又对珍贵木材极其喜爱，在此情况下，匠人们发明了把木材切割开的工艺。

木皮的魅力，在于其独一无二的木纹，以及浑然天成的自然美，制作木皮所要经历的严谨生产工序更为它增加了不一样的价值。

The earliest use of wood veneer was in Egypt 4000 years ago. Because the local climate is tropical desert, the wood resources are scarce, but the ruling class is extremely fond of precious wood. In this case, craftsmen invented cutting wood.

The charm of wood veneer lies in its unique wood grain and natural beauty. The rigorous production process for making wood veneer adds different value to it.

VENEER CATALOGUE

木皮分类

科技木皮 ENGINEERED VENEER

通过对原材进行干燥、染色、再构造、除虫、高温高压等一系列工序进行深加工形成“天然肌理”或其他超越自然的纹理风格，杜绝了天然木皮结痂、不规则等问题。

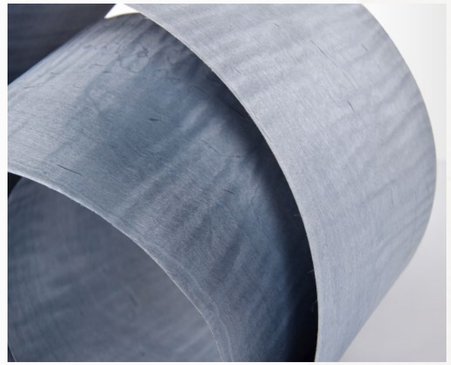

Through deep processing of raw materials with a series of processes such as drying, dyeing, reconstruction, insect removal, high temperature and high pressure, it forms "natural texture" or other texture styles beyond nature, so as to eliminate the problems of scab and irregularity of natural veneer.

天然木皮 NATURAL VENEER

甄选名贵木种，根据木材特性量身定制生产工艺，经过剖方、刨切、烘干、裁剪等工序，保留木皮天然的纹理和触感，每一片木皮都是独一无二的艺术品。

Select precious wood species, customize the production process according to the wood characteristics, and retain the natural texture and touch of the veneer through the processes of cutting, planing, drying and cutting. Each veneer is a unique art.

染色木皮 DYED VENEER

利用高科技对天然木皮进行缺陷及着色处理，既保留了木皮天然的纹理和触感，亦达到更精致的饰面效果。其色泽的灵活性，为设计师留下了色彩想象空间。

Using high technology to make defects and coloring treatment on natural veneer, it not only keeps the natural texture and touch of veneer, but also achieves more delicate finishing effect. The flexibility of its color leaves designers with space for color imagination.

烟熏木皮 SMOKED VENEER

烟熏木皮又称碳化木皮，经过表面炭化或深度处理，木皮表面具有一层很薄的炭化层，突显凹凸的木纹质感、立体效果。纹理清晰、复古别致，满足多样化和个性化消费需求。

Also known as carbonized veneer. After surface carbonization or deep treatment, the surface of veneer has a very thin carbonized layer, which highlights the concave-convex wood grain texture and three-dimensional effect. Clear texture, retro and chic, meeting diversified and personalized demands.

实物请参看五羊艺冠色卡《木皮饰面》,并接受色卡以外的所有木皮饰面的订制。

Please refer to WINEGO color chart “Wood Veneer Finishes” for details, and other veneer finishes can be customized .

DECORATIVE HIGH-PRESSURE LAMINATE PANEL

防火板

防火板是一种极具极强装饰性又经久耐用的高压装饰防火材料，具有耐磨、耐刮、耐冲击、耐高温、易清洁等特点。被广泛应用于各种室内装饰表面，如墙面、天花、包柱、隔断、台面等等。

五羊艺冠的防火板涵盖了纯色、木饰面、亮面、珍珠绒面、浮雕等表面纹理选择，并具备丰富的板材尺寸，适用于各种空间的不同需求，欢迎您定制。

The fire resistant panel is a highly decorative and durable high-pressure decorative fire resistant material, which has the characteristics of wear resistance, scratch resistance, impact resistance, high temperature resistance and easy cleaning. Widely used in various interior decoration surfaces, such as walls, ceilings, columns, partitions, countertops and so on.

The fire resistant panel of Winego provides the choice of surface texture such as pure color, wood grain, high gloss, pearl matt and relief, and has abundant sizes, which is suitable for different needs of various spaces. You are welcome to customize it.

FINISH III

饰面类型 III

MELAMINE

三聚氰胺

三聚氰胺饰面板，简称三胺板，是由基材、浸胶纸高温压贴而成，可塑性极强，可灵活仿制各种纹理。图案和颜色，且色彩、光泽和质地稳定统一，硬度大，耐磨耐热耐腐蚀，性价比高，是许多装饰墙板和定制家具的首选。

Melamine finish panel, is made of base material and melamine impregnated paper with high pressure laminated, various textures available. The pattern and color, the colouration, the gloss and texture are uniform, the hardness is large, the wear-resistant heat resistance, the cost-effective, is the first choice for many decorative wall panels and custom furniture.
